

Please don't cancel FM translator service! We would lose our favorite radio station - KLOVE (91.1 FM). KLOVE is the best station for contemporary Christian music in Colorado. It is the only station my kids and I can agree on. There is no swearing or inappropriate language. As a mom, I appreciate that. We receive encouragement from this station EVERY DAY. We also know that KLOVE reaches people who would otherwise not hear about Christ. We are active supporters of KLOVE and ask that you not take any action that would take this important public service off the air.
